Message from the Guest Editor

Throughout history, humans have relied on extracting resources from forests to satisfy the diverse needs for food, shelter, and even spiritual well-being. Today, the cultural value of trees, forests, and wood is extensively studied from the perspective of sustainable forest management. However, cultures relevant to trees are geographically specific, due to all the different types of forests and indigenous cultures in the world.

This Special Issue plans to provide a comprehensive perspective of the diverse cultural values relevant to forests, trees, and wood that exist in the world, and also the transformation of tree/forest cultural values under social economic situations, e.g., globalization and urbanization. Research related to how people's attitudes and perceptions influence forest management and utilization are also welcomed.

Potential topics include, but are not limited to:

- Forests in sacred sites;
- Trees for ceremonies, rituals, or religions;
- Gender and trees;
- Forest tourism;
- Forest recreation;
- Forest bathing.

Message from the Editorial Board

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank: JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)
