## Fungi in Forest Ecosystems: Systematics, Diversity and Ecology

Guest Editor:

**Prof. Dr. Baokai Cui**

Institute of Microbiology, School of Ecology and Nature Conservation, Beijing Forestry University, P.O. Box 61, Beijing 100083, China

Deadline for manuscript submissions:

**closed (30 November 2023)**

### Message from the Guest Editor

Special Issue "Fungi in Forest Ecosystems: Systematics, Diversity and Ecology" focuses on the study of fungi in forest ecosystems. The aim of this Special Issue is to provide a platform for researchers to share their latest findings on and insights into the role of fungi in forest ecosystems, fungal diversity, community structure, ecological interactions within forest ecosystems, the systematics and evolution of fungi, and the role of fungi in nutrient cycling as well as carbon storage.

The Special Issue welcomes articles that cover a wide range of topics related to fungi, including their taxonomy, diversity, molecular phylogeny, community structure, and ecological interactions, highlighting the importance of fungi in nutrient cycling, carbon storage, and other key ecosystem processes, in addition to the complex relationships between fungi and other organisms in forest ecosystems, including plants, animals, and microorganisms. Overall, this Special Issue provides a valuable resource for researchers and practitioners working in the fields of forest ecology and management.

## Editors-in-Chief

### Prof. Dr. Cate Macinnis-Ng

Department of Biological Sciences, Faculty of Science, University of Auckland, Private Bag 92019, Auckland 1142, New Zealand

### Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

## Message from the Editorial Board

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

**Journal Rank:** JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)
