### Message from the Guest Editor

Dear Colleagues,

Articles will be requested from a call for contributions to this Special Issue "A Decade of *Forests* Open Access Publishing", which was inspired as part of the decennial celebrations for the journal *Forests*. The purpose of the event was to reflect on the past decade's progress in research on forests and forestry, and to identify emerging issues to address over the coming decade. The Special Issue set out to draw on the insights that emerged at this decennial event, and is in line with the aim and scope of *Forests*. From forest ecology and management to forest ecophysiology, from urban forestry to human dimensions and everything in between. Such a context invites a broad array of potential contributions from Editorial Board Members of *Forests* and prestigious scholars and practitioners.
