Deadline for manuscript
submissions:

closed (30 September 2023)

Message from the Guest Editors

We are seeking papers that address the value of forest resources and ecosystem services which can assist with effective policy and decision-making. Papers that identify critical challenges and discuss good practices in forests valuation, advantages and limits of valuation concepts and methods, potential for improved forest management strategies, and advancement in stakeholders' engagement, providing examples of empirical analysis and case study, are of particular interest. The papers should inform policy and decision makers, program and project implementers, funding agencies, educators, and researchers about the economic, social, and ecological values and viability of various strategies for forest resources management, conservation, and sustainability. These papers may take the form of experiments, observations, perspectives, and reviews. Submissions should address problems that can drive future research directions that strive to enhance our understanding of the economic valuation of forest resources and ecosystem services, including cultural and spiritual values, livelihoods, recreation, biodiversity conservation, adaptation, mitigation and resilience.

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank: JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)
