Urban Forest Landscape Planning, Management and Evaluation

Guest Editors:

Dr. Milena D. Lakicevic
Faculty of Agriculture, University of Novi Sad, Trg Dositeja Obradovica 8, 21000 Novi Sad, Serbia

Dr. Kazuhiro Aruga
Department of Forest Science, Utsunomiya University, 350 Mine, Utsunomiya 321-8505, Japan

Prof. Dr. Won-Sop Shin
School of Forest Resources, Chungbuk National University, Cheongju-si 361-763, Republic of Korea

Deadline for manuscript submissions:
closed (18 August 2024)

Message from the Guest Editors

This Special Issue aims to publish high-profile papers that deal with up-to-date research in planning and managing urban forests. The scope of this issue is broad and encompasses research related to diverse biology and forestry disciplines such as botany, dendrology, entomology, forest pathology, etc., in the context of urban forests and their proper management and planning. In addition to this, there are newly developed IT tools (including decision support systems) and specialized software in forestry science that move both theory and practical work forwards, and papers dealing with this subject are also very welcome. The papers we are soliciting should help in understanding the process of urban forest planning, management, and evaluation by offering representative real case study examples or introducing contemporary methodology and practices.

Special Issue

Editors-in-Chief

Prof. Dr. Cate Macinnis-Ng
Department of Biological Sciences, Faculty of Science, University of Auckland, Private Bag 92019, Auckland 1142, New Zealand

Prof. Dr. Giacomo Alessandro Gerosa
Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Message from the Editorial Board

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.
Journal Rank: JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)
