### Message from the Guest Editor

Dear Colleagues,

The incidence of abiotic and biotic stress in trees is increasing globally, leading to escalating concerns for forest protection, biodiversity, the provision of ecosystem services, biosecurity, economic production, and rural livelihoods. Tree declines are now present in most geographical regions in the world, extending from cold temperate to tropical forests. The objective of this Special Issue of *Forests* is to explore, using review articles and original research papers, the major abiotic and biotic stressors that have caused or incited significant tree decline and mortality in natural and planted forests over the past decade. It will also explore the recent drivers of change, global threats, risk management, and related topics.

Prof. Bernard Dell

## Editors-in-Chief

### Prof. Dr. Cate Macinnis-Ng

Department of Biological Sciences, Faculty of Science, University of Auckland, Private Bag 92019, Auckland 1142, New Zealand

### Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

## Message from the Editorial Board

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

**Journal Rank:** JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)
