Message from the Guest Editor

Dear Colleagues,

The current climate change has a very significant effect on the health, vitality, and productive capacity of forest ecosystems. At the same time, society's requirements for forests are further increasing and diversifying. The ecological, economic, and social impacts of the ongoing changes need to be analyzed in detail, not only in relation to natural forests, but also to commercial forests. Although these stands were established mainly for timber production, they are dominant in certain areas, and their current significance is much wider than expected. As some traditional forestry practices prove to be failing, new ways of adapting productive forestry need to be sought. Due to the topicality of this problem, a Special Issue of the *Forests* journal entitled Economics, Policies and Management of Production Forests in Time of Global Change is open for the publication of original scientific papers.

Editors-in-Chief

Prof. Dr. Cate Macinnis-Ng

Department of Biological Sciences, Faculty of Science, University of Auckland, Private Bag 92019, Auckland 1142, New Zealand

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Message from the Editorial Board

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank: JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)
