Message from the Guest Editors

Invasion of alien species by recognized as one of the most serious threats to the preservation of natural biodiversity. Invasive plants displace native species from natural phytocenoses, causing serious damage to the environment, the economy, and even human health. The problem of biological invasions is in the spotlight of the general public. Particularly significant negative impacts have been caused when invasive species have invaded into forest plant communities, reducing their economic and recreational value and preventing the natural regeneration of the concerned stands.

We invite you and your colleagues to publish your reviews and articles in this Special Issue, entitled “Research, Assessment, and Management of Invasive Plant Species”, and contribute to the expansion of scientific knowledge on plant invasions. This will help to develop science-based, effective measures to combat aggressive invaders.

an Open Access Journal by MDPI

Editors-in-Chief

Prof. Dr. Cate Macinnis-Ng

Department of Biological Sciences, Faculty of Science, University of Auckland, Private Bag 92019, Auckland 1142, New Zealand

Message from the Editorial Board

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank: JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)
