**Dr. Won Il Choi**

National Institute of Forest Science, Seoul, Republic of Korea

Deadline for manuscript submissions:

**closed (30 June 2019)**

### Message from the Guest Editors

Dear Colleagues,

Forest pests and diseases have diverse negative impacts on the forestry economy, ecosystem service, biodiversity, and sustainable ecosystem management. Monitoring their occurrence and the assessment of their impacts are a first step to effectively manage forest pests and diseases. It provides basic knowledge about forest pests and diseases, as well as proper management methods. Based on the data from monitoring programs, new methods for monitoring, assessing impacts, and developing management techniques could be developed. To provide a better understanding of the structure and processes in the forest ecosystems, and to provide fundamental information for effective management of forest pests and diseases, this Special Issue will accept studies from broad research topics related to impacts, monitoring, and management of forest pests and diseases, including case studies, methods, theories, and models.

Prof. Dr. Young-Seuk Park

Dr. Won Il Choi

## Editors-in-Chief

### Prof. Dr. Cate Macinnis-Ng

Department of Biological Sciences, Faculty of Science, University of Auckland, Private Bag 92019, Auckland 1142, New Zealand

### Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

## Message from the Editorial Board

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

**Journal Rank:** JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)
