Message from the Guest Editor

Dear Colleagues,

Forest certification is one of the best-known voluntary environmental programs designed to demonstrate corporate social responsibility. While forest certification has become well established, scientific questions regarding its empirical impacts and effectiveness remain. Has forest certification improved forest management on the ground, improved social forestry processes, or enhanced economic returns compared to noncertified forests? This Special Issue will focus on research that assesses how professionals, certified forest land managers, and scientists can identify, measure, practice, implement, and evaluate whether forest certification is enhancing forest sustainability. Research articles should focus on empirical studies, using either primary field samples and data or secondary data and statistical analyses, in order to measure and evaluate the impacts of certified versus non-certified forests, based on ecological, social, or economic criteria.

an Open Access Journal by MDPI

Editors-in-Chief

Prof. Dr. Cate Macinnis-Ng

Department of Biological Sciences, Faculty of Science, University of Auckland, Private Bag 92019, Auckland 1142, New Zealand

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Message from the Editorial Board

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank: JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)
