### Message from the Guest Editors

Dear Colleagues,

As is well known, the use of wood has countless benefits from an environmental, but also technical and economic point of view. Wood was the material of the past but now, according to many, it is being defined as the material of the future thanks to both a renewed environmental awareness and to the technological and scientific advances that allow for an increasingly rational and sustainable use.

The purpose of this Special Issue is, therefore, to stimulate the submission of innovative contributions able to disseminate knowledge about the production, processing, and final uses of wood materials, whether they are in construction (structural or non-structural), furniture and other environmentally-friendly products, etc., which can be used to guide the future choices of industry and society towards a more sustainable economy.

Dr. Michele Brunetti

## Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

**Journal Rank:** JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)
