## Advanced Technologies in Physical and Mechanical Wood Modification

Guest Editors:

**Dr. Radoslaw Mirski**

Faculty of Wood Technology,  
Poznan University of Life  
Sciences, Poznan, Poland

**Dr. Dorota Dziurka**

Faculty of Forestry and Wood  
Technology, Department of  
Wood-Based Materials, Poznań  
University of Life Sciences,  
Poznań, Poland

Deadline for manuscript  
submissions:

**closed (30 June 2023)**

### Message from the Guest Editors

Wood is a material with physical and mechanical properties so impressive that it is difficult to substitute it with alternatives. Due to both its physical structure and its chemical composition it is a valuable material in many applications. Such processes are generally aimed at improving the physical, biological, and in many cases mechanical properties of wood. In this area, we can distinguish thermal treatment, mechanical treatment or transformation of wood to another form. The aim of this Special Issue is to update the knowledge on the latest wood modification processes and to present wood-based products with improved or modified properties. This issue is also intended to provide a space for the presentation of not only new technological solutions for wood modification but also to identify features as well as drawbacks of wood that need to be improved. We encourage you to submit both purely scientific articles as well as review papers or even interesting expert opinions on new processes of both shallow and deep wood modification. The papers may also indicate directions for the use of modified wood or wood materials.

## Editors-in-Chief

### **Prof. Dr. Cate Macinnis-Ng**

Department of Biological Sciences, Faculty of Science, University of Auckland, Private Bag 92019, Auckland 1142, New Zealand

### **Prof. Dr. Giacomo Alessandro Gerosa**

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

## Message from the Editorial Board

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

**Journal Rank:** JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)
