Special Issue

Forests for Public Health— Selected Papers from the 3rd World Conference on Forests for Public Health

Message from the Guest Editors

Today, modern lifestyles have created public health problems. And more evidence has documented the natural environment can improve human health. Therefore, an interdisciplinary scientific approach is essential to study the relationship between green spaces and human health. The 3rd World Conference on Forests for Public Health, 4–7 October 2023, Sherbrooke, Canada, will mark the dawn of its new global era to find sustainable future directions for the multidisciplinary field of green spaces and human health. The main topics are as follows:

1. Environmental health epidemiology, forest medicine and physiological assessments, global health issues of public health and green spaces. 2. Mental health benefits of exposure to Nature and green spaces. 3. Planning physical activities and access for human forest recreation and tourism in natural environment for public health. 4. Urban forests and their ecosystem services for public health. 5. Urban forestry planning and design for human health activities, availability, and accessibility. 6. Forest therapy, green care, public health policies and economics, social cohesion, and social-economic aspects of forests for public health.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have Forests be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
