

Special Issue

Sustainable Forest Management Criteria and Indicators

Message from the Guest Editors

For nearly three decades, state and non-state actors have developed and used criteria and indicators (C&I) to define, measure, monitor, and report on the sustainability of forests at local to international levels. In these efforts, criteria define the elements against which forest sustainability is assessed, reflecting the environmental, economic, and social values essential for sustainable forest management (SFM). Indicators are the quantitative, qualitative, or descriptive parameters that correspond to a specific criterion and which can be measured and monitored over time. This Special Issue will present current research on SFM C&I, aiming to understand when, why, and where these efforts generate up-to-date comprehensive information on forest sustainability, become institutionalized, and enable enhanced decision-making on related policy and practices. We encourage the submission of manuscripts that provide new information on a broad range of topics, including: criteria and indicators; C&I processes; sustainable forest management; forest certification.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the second half of 2024).
