Special Issue

Wildlife in Altered Forestry Habitats: Implications for Conservation and Applications

Message from the Guest Editors

Understanding relationships between wildlife and habitat is key to conserving biodiversity and sustaining ecosystem services; therefore, this Special Issue seeks research and syntheses that reveal how animals select, use, and alter forested, agro□forestry, and urban green spaces across all scales. We welcome studies that leverage remote sensing, GPS, camera traps, genetics, or even AI or machine learning to track fine□scale responses to habitat change; test the use of conservation tools in protected areas, corridors, local communities, or restoration efforts, and turn mechanistic insights into practical guidance for landscape planning and human–wildlife coexistence. Interdisciplinary, application□oriented contributions addressing themes of wildlife adaptation to altered habitats are highly encouraged.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa
Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Author Benefits

High Visibility:
indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:
JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
