

Special Issue

Biological Control in Forests Protection

Message from the Guest Editors

Biological control of forest plant material becomes an imperative in regard of EU regulations on Integrated Pest Management (IPM) requiring a search for alternative plant protection methods that are safe for humans, animals and the environment. The objective of this Special Issue in Forests is to summarize state-of-art knowledge on Forest Tree Protection by exploring biocontrol measures undertaken in biological pest and disease control, physiology and behaviour of biocontrol agents and their interaction with hosts, genetic improvement of natural enemies including genetic manipulation, environmental impact studies and the role of biocontrol methods in integrated forest protection. Original research papers and review articles in forest organisms trees related with BCA, including plant physiology approaches (from classical physiology to molecular techniques of identification and genome editing CRISPR/Cas9), are welcome.

About the Journal

Message from the Editorial Board

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editors-in-Chief

Prof. Dr. Cate Macinnis-Ng

Department of Biological Sciences, Faculty of Science, University of Auckland, Private Bag 92019, Auckland 1142, New Zealand

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.9 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2024).
