

Special Issue

Soil Biology and Biochemistry of Forests

Message from the Guest Editors

Forest soil is a habitat of numerous Earth organisms, including microfauna, mesofauna, and megafauna. Soil organisms have a crucial influence on soil processes, soil health, water and air flows, and energy fluxes. Moreover, soil organisms fulfill key processes in the soil, such as decomposition and nutrient mineralization. In this Special Issue, we are aiming to build a collection of recent research findings and review and meta-analysis articles on soil biology and biochemistry. Moreover, we welcome papers dealing with the importance of soil biodiversity, machine learning in soil biochemistry, spatial modeling of soil fauna, soil and soil food web, and the interaction between soil biology with soil physicochemical properties and processes to regulate belowground functions. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the second half of 2024).
