

Advances in Fractional-Order Chaotic and Complex Systems

Guest Editors:

Prof. Dr. Chunhua Wang

College of Computer Science and Electronic Engineering, Hunan University, Changsha 410082, China

Dr. Fei Yu

School of Physics and Electronic Science, Changsha University of Science and Technology, Changsha 410114, China

Dr. Wei Yao

School of Physics and Electronic Science, Changsha University of Science and Technology, Changsha 410114, China

Deadline for manuscript submissions:

closed (31 January 2026)

Message from the Guest Editors

This Special Issue aims to promote the development and application of fractional-order chaos theory in fields such as mathematics, physics, computer science, economics, engineering, and artificial intelligence. Innovative research on the theory and application development of fractional-order chaos is very prevalent. In addition, research papers on discovering new fractional-order chaotic phenomena, constructing new fractional-order chaotic systems, and proposing new applications of fractional-order chaos are also very popular. We look forward to receiving research manuscripts on fractional-order chaotic systems, fractional-order memristors, fractional-order neural networks, fractional-order circuits, fractional-order complex systems, and applications based on fractional-order chaos. In conclusion, potential topics include, but are not limited to, the following:

- Fractional-order theory;
- Fractional-order chaotic systems and circuits;
- Fractional-order memristors;
- Fractional-order neural networks;
- Fractional-order complex systems and complex networks;
- Other Fractional-order non-linear systems and circuits;
- Applications based on fractional-order chaos.

an Open Access Journal by MDPI

Italy

Message from the Editor-in-Chief

Fractal and Fractional (*Fractal Fract.*) is a scholarly online journal which provides a forum for discussion on new original models and methods in fractals and fractional calculus both from theory and applications. It is a peer-reviewed, open access journal that publishes high quality original research articles, review papers and short communications.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Inspec](#), and [other databases](#).

Journal Rank: JCR - Q1 (Mathematics, Interdisciplinary Applications) / CiteScore - Q1 (Analysis)
