### Message from the Guest Editors

Dear Colleagues,

We are pleased to announce a new *Future Internet* Special Issue that is quite different from our typical ones, which will mainly focus on either selected areas of research or special techniques. For this Special Issue, *Future Internet* is compiling a collection of papers submitted exclusively by its Editorial Board Members (EBMs) and Guest Editors (GEs) covering different areas of Internet technologies and the information society. The main idea behind this issue is to turn the tables and allow our readers to be the judges of our academic editors.

Prof. Dr. Dino Giuli

## Message from the Editor-in-Chief

*Future Internet* is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Computer Science, Information Systems*) / CiteScore - Q1 (Computer Networks and Communications)
