State-of-the-Art Future Internet Technology in USA 2022–2023

Guest Editor:

Dr. Eirini Eleni Tsiropoulou

Department of Electrical and
Computer Engineering, University
of New Mexico, Albuquerque, NM
87131, USA

Deadline for manuscript
submissions:

closed (31 December 2023)

Message from the Guest Editor

Dear Colleagues,

This Special Issue aims to provide a comprehensive overview of the current state of the art in Future Internet technology in the USA. We invite research articles that will consolidate our understanding in this area.

The Special Issue will publish full research papers and reviews. Potential topics include, but are not limited to, the following research areas:

- Advanced communications network infrastructures;
- Internet of Things;
- Centralized and distributed data centers;
- Industrial internet;
- Embedded computing;
- 5G/6G networking
- IoT platforms, integration, and services
- Software-defined network functions and network virtualization;
- Quality of service in wireless and mobile networks
- Vehicular cloud networks
- Cloud-let and fog-computing;
- Cyber-physical systems;
- Smart energy systems;
- Smart health-care systems;
- Smart manufacturing lines;
- Smart city;
- Human–computer interaction and usability;
- Smart learning systems;
- Artificial and augmented intelligence;
- Cyber security, compliance.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Gianluigi Ferrari

Department of Engineering and
Architecture, University of Parma,
Parco Area delle Scienze, 181/A,
43124 Parma, Italy

Message from the Editor-in-Chief

Future Internet is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Computer Science, Information Systems*) / CiteScore - Q1 (Computer Networks and Communications)
