

## Special Issue

# Polarimetry as a Probe of Magnetic Fields in AGN Jets

### Message from the Guest Editors

This special issue of *Galaxies* entitled **Polarimetry as a Probe of Magnetic Fields in AGN Jets**, motivated in part by presentations and discussion at a special session on polarimetry at the conference “The 3C Extragalactic Radio Sky” held in Torino, Italy in September 2019, is dedicated to papers describing progress in understanding magnetic fields in AGN jets using polarization as a tool. This issue is dedicated to describing these observational and theoretical advances and will include both solicited and contributed papers. We invite you to submit articles and reviews addressing these topics. Dr. Margo F. Aller Prof. José L. Gómez Prof. Eric S. Perlman

## About the Journal

### Message from the Editorial Board

*Galaxies* provides an advanced forum for studies related to astronomy, astrophysics, and cosmology, including all of their subfields. Different formats, such as specialized research articles, reviews, communications and technical notes are welcomed. Manuscripts containing original and creative research proposals and ideas are especially appreciated.

We encourage scientists to publish their astronomical observations and theoretical results in as much detail as possible. There is no restriction on the paper length and full experimental and methodological details, as applicable, should be provided. All papers will be peer reviewed promptly. On behalf of the distinguished members of the editorial board, I extend my welcome to all researchers working on these subjects to contribute to *Galaxies*.

### Editors-in-Chief

Dr. Margo Aller

Department of Astronomy, University of Michigan, Ann Arbor, MI 48109-1042, USA

Dr. Jose L. Gómez

Instituto de Astrofísica de Andalucía (IAA-CSIC), Glorieta de la Astronomía S/N, 18008 Granada, Spain

---

### Author Benefits

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), Astrophysics Data System, INSPIRE, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Astronomy and Astrophysics) / CiteScore - Q2 (Astronomy and Astrophysics)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 25.8 days after submission; acceptance to publication is undertaken in 5.9 days (median values for papers published in this journal in the second half of 2025).
