## Message from the Editorial Board

*Genealogy* is a scholarly journal that provides a venue for academic, cutting-edge contributions to the interdisciplinary field of genealogy studies. We welcome contributions that examine genealogies of family lineage, use genealogical considerations and methods in examining other historical processes (including migration histories, personal, social, and national identities, and social institutions) or study the construction of genealogical narratives. The journal is also interested in biographical studies and their contribution to the understanding of broader social and historical phenomena.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, ESCI (Web of Science), and many other databases.

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 26.9 days after submission; acceptance to publication is undertaken in 5.8 days (median values for papers published in this journal in the first half of 2024).
