Genetic Research on Monogenic Skin Disorders

Guest Editor:

Dr. Nikoletta Nagy

1. Department of Medical Genetics, University of Szeged, 6720 Szeged, Hungary
2. ELKH-SZTE Functional Clinical Genetics Research Group, Eötvös Loránd Research Network, 6720 Szeged, Hungary

Deadline for manuscript submissions:
closed (15 March 2024)

Message from the Guest Editor

Dear Colleagues,

This Special Issue aims to publish cutting-edge studies, which elucidate missing heritability and high phenotypic diversity in genodermatoses. These investigations may identify further yet unknown disease-causing genes, phenotype-modifier genetic variants, and/or epigenetic abnormalities associated with missing heritability and high phenotypic diversity in genodermatoses. The results of these investigations not only provide novel research data, but also may be extremely useful for the affected patients and thus may further accelerate the development of clinical genetics and genomics. We are expecting papers that elucidate missing heritability and high phenotypic diversity in genodermatoses.

Editor-in-Chief

Prof. Dr. Selvarangan Ponnazhagan

Department of Pathology, The University of Alabama at Birmingham, 1825 University Blvd, SHEL 814, Birmingham, AL 35294-2182, USA

Message from the Editor-in-Chief

Genes are central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fastmoving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised.

Why not consider *Genes* for your next genetics paper?

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank: JCR - Q2 (*Genetics and Heredity*) / CiteScore - Q2 (*Genetics (clinical)*)
