Gene Regulation of Calcium Channels in Health and Disease

Guest Editor:

Prof. Dr. Norbert Weiss

Institute of Biology and Medical Genetics, Charles University, First Faculty of Medicine, Prague, Czech Republic

Message from the Guest Editor

The goal of this Special Issue of *Genes* is to facilitate the dissemination of recent developments regarding the genetic regulation of calcium channels in health and diseased conditions. We invite submission for reviews, original articles, and short communications reporting the regulation of calcium channels at genetic or epigenetic levels.

Deadline for manuscript submissions:

closed (30 November 2020)

Editor-in-Chief

Prof. Dr. Selvarangan Ponnazhagan

Department of Pathology, The University of Alabama at Birmingham, 1825 University Blvd, SHEL 814, Birmingham, AL 35294-2182, USA

Message from the Editor-in-Chief

Genes are central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fastmoving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised.

Why not consider *Genes* for your next genetics paper?

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank: JCR - Q2 (*Genetics and Heredity*) / CiteScore - Q2 (*Genetics (clinical)*)
