closed (15 November 2021)

Message from the Guest Editors

Dear Colleagues,

The 20th International Conference on Bioinformatics (InCoB 2021) will be held on 6–8 November, in Kunming, Yunnan, China, hosted by Kunming University of Science and Technology (KMUST), Kunming, China. The event webpage is: <http://www.incob2021.cn/>.

The International Conference on Bioinformatics (InCoB) is a scientific conference on bioinformatics, primarily aimed at scientists in the Asia Pacific region. It has been held annually since 2002. Since COVID-19 is still ongoing, one of the main topics of InCoB 2021 will be understanding the relationship between biodiversity and human health with a computational approach.

Message from the Editor-in-Chief

Genes are central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fastmoving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised.

Why not consider *Genes* for your next genetics paper?

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank: JCR - Q2 (*Genetics and Heredity*) / CiteScore - Q2 (*Genetics (clinical)*)
