Genetic Insights into Plant-Pathogen Interactions

Guest Editor:

Prof. Dr. Zhuo Chen

Key Laboratory of Green Pesticide & Agricultural Bioengineering, Ministry of Education Center for Research and Development of Fine Chemicals, Guizhou University, Guiyang 550025, China

Deadline for manuscript submissions:

15 January 2025

Message from the Guest Editor

Dear Colleagues,

The Special issue “Genetic Insights into Plant-Pathogen Interactions” attempts to highlight the fascinating interactions that exists between pathogens and plants. The genetic factors influencing these interactions are examined in this issue, providing important information about pathogen evolution, plant defence mechanisms, and the general dynamics of these interactions. Researchers are invited to contribute their research that will expand our knowledge of the molecular and genetic underpinnings governing these important connections, opening new avenues for crop productivity and sustainable agriculture.

Prof. Dr. Zhuo Chen

Message from the Editor-in-Chief

Genes are central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fastmoving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised.

Why not consider *Genes* for your next genetics paper?

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank: JCR - Q2 (*Genetics and Heredity*) / CiteScore - Q2 (*Genetics (clinical)*)
