Genetics and Genomics of Vascular, Glomerular Disorders and Thrombosis

Guest Editor:

Dr. Dorottya Csuka

Department of Internal Medicine
and Haematology, Semmelweis
University, Budapest, Hungary

Deadline for manuscript
submissions:

closed (15 June 2021)

Message from the Guest Editor

Scientists may detect easily a large proportion of disease-causing mutations, in the background of various disorders, such as cancers or (rare) hereditary diseases, enabling a more individualized treatment strategy.

The proposed Special Issue entitled “Genetics and Genomics of Vascular, Glomerular Disorders and Thrombosis” aims to present novel disease-associated candidate genes, genetic variations of potential diagnostic value and possible pioneering therapeutic approaches. For this purpose, a wide range of publications by experts in the above mentioned issues are welcome, in the form of original research papers.

Editor-in-Chief

Prof. Dr. Selvarangan Ponnazhagan

Department of Pathology, The University of Alabama at Birmingham, 1825 University Blvd, SHEL 814, Birmingham, AL 35294-2182, USA

Message from the Editor-in-Chief

Genes are central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fastmoving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised.

Why not consider *Genes* for your next genetics paper?

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank: JCR - Q2 (*Genetics and Heredity*) / CiteScore - Q2 (*Genetics (clinical)*)
