## Breeding and Genetics of Pig

### Message from the Guest Editors

In this Special Issue, we delve into the fascinating realm of pig breeding and genetics, exploring the advancements and breakthroughs that have revolutionized the industry. From identifying desirable traits to enhancing productivity, this collection of articles offers valuable insights into the science behind pig breeding and the genetic factors that contribute to their diversity. Whether you are a researcher, farmer, or simply curious about the intricacies regarding pig genetics, this Special Issue will certainly provide a comprehensive overview of this study area. Contributions in the format of original research papers and review manuscripts will be welcome in this Special Issue.

## About the Journal

### Message from the Editor-in-Chief

Genes are central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fastmoving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised.

Why not consider *Genes* for your next genetics paper?

---

### Editor-in-Chief

Prof. Dr. Selvarangan Ponnazhagan

Department of Pathology, The University of Alabama at Birmingham,  
1825 University Blvd, SHEL 814, Birmingham, AL 35294-2182, USA

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

#### Journal Rank:

JCR - Q2 (Genetics and Heredity) / CiteScore - Q2 (Genetics (clinical))
