University of Porto, 4169-007  
Porto, Portugal

Deadline for manuscript  
submissions:

**closed (15 August 2023)**

### Message from the Guest Editors

This Special Issue of *Geomatics* will address the implementation and use of open source GIS applications for geospatial analysis in several areas, such as climate change, environment, biology, health, risk, landscape, and ecology, among others. As well as the development of new web-based GIS solutions, which have led to easier ways to disseminate geospatial information to any user and GIS mobile applications, a powerful technology which improves the quality and speed of data collection simplifying the collaboration between field and office.

The scope of this Special Issue includes the following:

- The implementation of new methodologies in GIS open source applications
- The application of GIS open source tools in several areas: environment, health, and climate change, among others
- The implementation of databases such as PostGIS or other in GIS open source applications
- GIS technologies to manipulate big data
- Web-based GIS solutions
- Real-time data collection

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Naser El-Sheimy

Department of Geomatics  
Engineering, The University of  
Calgary, Calgary, AB T2N 1N4,  
Canada

## Message from the Editor-in-Chief

*Geomatics* is an information technology discipline which integrates the tasks of gathering, storing, processing, modeling, analyzing, and delivering spatially referenced or location information.

*Geomatics* journal offers a new forum to promote multidisciplinary research over broad ranges geomatics innovative research and applications. Original contributions in the form of research papers, communications, letters, short notes, and reviews on all aspects of *Geomatics* are invited.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [ESCI \(Web of Science\)](#), [EBSCO](#), and [other databases](#).

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.8 days after submission; acceptance to publication is undertaken in 4.1 days (median values for papers published in this journal in the first half of 2024).
