School of Medicine, St. Louis, MO,  
USA

Deadline for manuscript  
submissions:

**closed (1 March 2020)**

### Message from the Guest Editors

Dear Colleagues,

This is the second in a series of Special Issues on Geriatrics that will focus on risk factors of impaired driving in older adults, new methodologies and technologies that identify drivers at risk of driving decline, and driving interventions to improve driving skills and transportation alternatives. The Special Issue provides an open access opportunity to publish research articles, reviews, opinions, letters, and case reports related to this important and increasingly noticed field of research. We hope that you and your colleagues will submit for publication in this Special Issue.

### Keywords

- Driving
- Aging
- Transportation
- Alzheimer's disease
- Crashes

## Editor-in-Chief

### Prof. Dr. Ralf Lobmann

Department of Endocrinology,  
Diabetology and Geriatrics,  
Clinical Centre Stuttgart -  
Katharinenhospital,  
Kriegsbergstrasse 60, D70174  
Stuttgart, Germany

## Message from the Editor-in-Chief

Our new journal is launched to serve geriatrics specialists and colleagues from other disciplines as an interface between theory and clinical practice. Pushing the boundaries of the discipline, I kindly invite you to consider publishing your current work in *Geriatrics*. We have chosen the format of an open access journal to provide all interested parties with a platform for their basic research and health care studies as well. For details on the submission process or any other matter, please visit the journal website. I hope to handle your contribution to *Geriatrics* soon to publish innovative, relevant, thought provoking ideas.

## Author Benefits

**Open Access:**— free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, ESCI (Web of Science), PubMed, PMC, and other databases.

**Journal Rank:** CiteScore - Q2 (*Health (Social Science)*)
