

Special Issue

Feature Papers in Geriatrics

Message from the Guest Editor

This Special Issue titled “Feature Papers in Geriatrics” aims to collect high-quality research articles, review articles, and communications in the research areas of the health and healthcare of elderly people, including issues regarding healthcare systems and policies. Because the aim of this Special Issue is to illustrate, through selected works, frontier research in geriatrics, we encourage Editorial Board Members of *Geriatrics* or relevant experts and colleagues to contribute papers reflecting the latest progress in their particular research field. Please kindly note that all invited papers will be published online free of charge once accepted. Topics include, but are not limited to, the following:

- Geriatric biology;
- Geriatric health services research;
- Geriatric medicine research;
- Geriatric neurology, stroke, cognition, and oncology;
- Geriatric surgery;
- Geriatric physical functioning, physical health, and activity;
- Geriatric psychiatry and psychology;
- Geriatric nutrition;
- Geriatric epidemiology;
- Geriatric rehabilitation.

About the Journal

Message from the Editor-in-Chief

Our new journal is launched to serve geriatrics specialists and colleagues from other disciplines as an interface between theory and clinical practice. Pushing the boundaries of the discipline, I kindly invite you to consider publishing your current work in *Geriatrics*. We have chosen the format of an open access journal to provide all interested parties with a platform for their basic research and health care studies as well. For details on the submission process or any other matter, please visit the journal website. I hope to handle your contribution to *Geriatrics* soon to publish innovative, relevant, thought provoking ideas.
