Deadline for manuscript
submissions:

15 August 2024

Message from the Guest Editor

Dear Colleagues,

Public health does not only concern patients and medical procedures aimed at improving the health of the population, subpopulations, and target groups in terms of treating disease. Rather, it includes issues such as the quality of life, the costs of procedures, disease prevention, and drugs. These issues are critical elements of national, continental and global healthcare strategies, as perfectly demonstrated by the COVID-19 pandemic.

Pharmacoeconomics, health economics, and medical decision economics are just some of the essential elements of medical strategy, which is perceived differently in different countries.

This Special Issue, entitled “Cost, Economics and Databases of Pharmaceutical Drugs in Public Health: Second Edition”, offers a unique opportunity to show the multifaceted nature of this issue, starting from costs and ending with the use of medical databases and systematic reviews in the effective use or allocation of resources to treat patients (including drugs).

I cordially invite you and your staff to submit publications to this Special Issue.

Dr. Krzysztof Kus
Guest Editor

an Open Access Journal by MDPI

Editor-in-Chief

Message from the Editor-in-Chief

Healthcare is an international, scientific, peer-reviewed, open access journal on health care systems, industry, technology, policy, and regulation, and is published semimonthly online by MDPI. Ocular Wellness & Nutrition Society (OWNS) is affiliated with *Healthcare* and its members receive discounts on article processing charges.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank: JCR - Q2 (*Health Care Sciences and Services*) / CiteScore - Q2 (*Leadership and Management*)
