Deadline for manuscript
submissions:

28 February 2025

Message from the Guest Editors

One Health identifies a systematic and integrated approach to health, based on the awareness that human, animal, and environmental health are inextricably interconnected, generating global health vulnerabilities, as demonstrated by the COVID-19 pandemic. One Health is an approach that needs now more than ever to be urgently put into practice through governance for the protection and promotion of health that can no longer be confined exclusively to that of humankind.

This Special Issue aims to publish evidence and observations in the field, also considering that the One Health approach does not focus only on zoonotic diseases or antimicrobial resistance but can address the entire spectrum from the prevention, improvement, and promotion of health to the detection, preparation, response, and overcoming of health crises. In this Special Issue, original research articles and reviews are welcome.

- one health
- infectious diseases
- zoonotic diseases
- parasitic diseases

an Open Access Journal by MDPI

Editor-in-Chief

Message from the Editor-in-Chief

Healthcare is an international, scientific, peer-reviewed, open access journal on health care systems, industry, technology, policy, and regulation, and is published semimonthly online by MDPI. Ocular Wellness & Nutrition Society (OWNS) is affiliated with *Healthcare* and its members receive discounts on article processing charges.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank: JCR - Q2 (*Health Care Sciences and Services*) / CiteScore - Q2 (*Leadership and Management*)
