Message from the Guest Editor

Palliative care is integral to the care of people living with life-limiting conditions, and the spiritual aspect of palliative care is the key to holistic and compassionate support. This Special Issue aims to highlight and disseminate the multiplicity of research exploring the multifaceted dimensions and approaches relevant to spiritual care, health and wellbeing in the context of palliative care.

We seek to bring together a diverse collection of research papers specifically addressing spirituality in palliative care, health and wellbeing.

We welcome original studies using qualitative, quantitative and mixed methods, and (all kinds of) reviews.
