Department of Medicine and  
Surgery, University of Parma,  
43125 Parma, Italy

Deadline for manuscript  
submissions:

**closed (31 October 2023)**

### Message from the Guest Editor

Dear Colleagues,

Chronic pain is a complex condition that has a significant impact on both the mental and physical health of those affected. In addition to affecting physical functioning, it has emotional repercussions, as demonstrated by the high comorbidity with psychological disorders. Chronic pain is a difficult condition to treat, frequently requiring individualized multidisciplinary care. Physical, cognitive, and emotional factors all contribute to the development and maintenance of chronic pain conditions. This Special Issue aims to examine the treatment, prevention, and management of chronic pain from physiological, educational, and psychological perspectives, given the complexity of chronic pain treatment. Researchers are encouraged to submit original research, reviews, or opinions that contribute to expanding knowledge about available treatments in chronic pain management.
