Effect of Digital Health among People with Type 2 Diabetes

Guest Editor:

Dr. Yao Wang

Diabetes Center, University of California, San Francisco (UCSF), San Francisco, CA, USA

Deadline for manuscript submissions:

closed (31 August 2024)

Message from the Guest Editor

This Special Issue of *Healthcare* will focus on the effects of digital health technology in patients with type 2 diabetes. Over the past two decades, digital health technology has significantly advanced, which has led to the improved management of type 2 diabetes. Patients with type 2 diabetes can now monitor their blood glucose levels, track their food intake and physical activity, and communicate with their healthcare providers by using glucose meters, wearable devices, and mobile applications.

In this Special Issue, we invite researchers to submit articles on the topic of the effects of digital technology in the management of type 2 diabetes. Original research or review articles are welcome.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

**Prof. Dr. Lorraine S.
Evangelista**

Sue & Bill Gross School of
Nursing, University of California,
Irvine, Irvine, CA 92697, USA

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank: JCR - Q2 (Health Policy and Services) / CiteScore - Q1 (Leadership and Management)
