Message from the Guest Editors

Vulnerable people in a society includes children, elderly, women, pregnant women, Indigenous populations, and people with chronic diseases. To address the health needs of such vulnerable peoples is a core value of social justice and a focus of research and practice among many health professionals around the world, in both developed and developing countries.<false,>This Special Issue of Healthcare is dedicated to celebrating our achievements and progress in this significant area by sharing international research, including (but not limited to) findings in the fields of risk factors, self-management and support, case management, adherence to medications/treatment, rehabilitation services, family/carer and community support, participation in prevention services, models of healthcare, patient-centred care, transitional care between primary and secondary/tertiary care, cultural safety/competency of the health system, telehealth, health policy and regulations, health industry, and health technology.

Special Issue

Editor-in-Chief

Message from the Editor-in-Chief

Healthcare is an international, scientific, peer-reviewed, open access journal on health care systems, industry, technology, policy, and regulation, and is published semimonthly online by MDPI. Ocular Wellness & Nutrition Society (OWNS) is affiliated with *Healthcare* and its members receive discounts on article processing charges.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.
Journal Rank: JCR - Q2 (*Health Care Sciences and Services*) / CiteScore - Q2 (*Leadership and Management*)
