Deadline for manuscript  
submissions:

**closed (30 June 2023)**

### Message from the Guest Editor

Dear Colleagues,

Gynecologic oncology is a rapidly evolving field. The past few years and months have been characterized by “game-changing” improvements in the prevention, diagnosis and management of gynecologic malignancies. Thanks to the HPV vaccine, we now have a potential tool to prevent the majority of cervical (and many vulvar) cancers. However, with fewer than 10% of the target population being vaccinated, we are far from eliminating cervical cancer.

One of the driving factors in (gynecologic) cancer research that has enabled us to complete studies in a much shorter time is collaboration across institutions.

This Special Issue of Healthcare seeks original articles, reviews, commentaries and short reports on Advances in Gynecologic Oncology. This Issue aims to publish manuscripts on developments in the prevention, epidemiology, diagnosis and management of gynecologic cancer, each of which will serve as a piece of the puzzle to further improve care for women with gynecologic malignancies.

Dr. Christoph Wohlmuth

*Guest Editor*

an Open Access Journal by MDPI

## Editor-in-Chief

## Message from the Editor-in-Chief

*Healthcare* is an international, scientific, peer-reviewed, open access journal on health care systems, industry, technology, policy, and regulation, and is published semimonthly online by MDPI. Ocular Wellness & Nutrition Society (OWNS) is affiliated with *Healthcare* and its members receive discounts on article processing charges.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

**Journal Rank:** JCR - Q2 (*Health Care Sciences and Services*) / CiteScore - Q2 (*Leadership and Management*)
