Dr. Megan Rollo

Deadline for manuscript
submissions:

closed (30 April 2018)

Message from the Guest Editors

Dear Colleagues,

Obesity is prevalent internationally and at all ages and stages of life. While the relationship between obesity, poor dietary patterns and nutrition, with the risk of morbidity and mortality from chronic disease, has been examined extensively, the relationship with quality of life, healthcare usage, and costs is less well studied. This Special Issue of *Healthcare*, “The Burden of Obesity in Health Care” welcomes the submission of previously unpublished manuscripts from original work on any of the above aspects, including nutrition, obesity and quality of life, patterns of health care service usage or waiting times for clinical services, work related outcomes and/or health care costs.

Prof. Dr. Clare E. Collins
Dr. Melinda J. Hutchesson
