Message from the Collection Editors

This Special Issue of Healthcare will focus on mindfulness in healthcare and mindful self-compassion. Mindfulness is known to positively impact numerous measures of personal health, including stress, anxiety, and depression, and improve mental and physical health. Mindfulness-based interventions have been effective in relieving pain and other symptoms, supporting and enhancing resilience, and improving academic success. We welcome papers exploring the cognitive and neurobiological mechanisms underlying the benefits of mindfulness and mindfulness self-compassion training; and mindfulness-based interventions to improve stress, resilience, and general well-being for both patients and healthcare staff and the impact of innovative mindfulness training programs in healthcare. We will feature original research and include interesting clinical studies, reviews, short reports, narratives, and opinion pieces from researchers interested in this research topic.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank: JCR - Q2 (Health Policy and Services) / CiteScore - Q1 (Leadership and Management)
