This Special Issue of Healthcare welcomes original contributions of relevance to this area of research across any setting, cultural background and academic disciplines with the hope of identifying work that will address challenges, opportunities and barriers to IPCP. Multidisciplinary research projects are especially encouraged. Authors are invited to submit research papers (quantitative, qualitative, case-studies or mixed-methods studies), concept analysis papers, quality improvement papers and review papers. We also encourage submissions from countries or regions in which the knowledge dissemination in this field has been scarce (e.g., Southern, Central and Eastern Europe; West and Central Africa; South and Central America, etc.).
