Deadline for manuscript submissions:

closed (1 December 2023)

Message from the Guest Editors

Dear Colleagues,

The increasing number of fragile patients represents a challenge due to the high number of procedures and the risk of directly compromising clinical outcomes and increasing therapeutic failures. For this reason, the etiological factors for the development of oral diseases as well as the presence of systemic and local factors should be widely investigated to understand how to prevent these diseases.

The role of risk factors should be carefully considered to prevent oral diseases because they can change the susceptibility or resistance of individuals. Systemic risk factors for oral diseases can include behaviors, such as smoking, medical conditions (i.e., poorly controlled diabetes, obesity, stress, osteopenia), and inadequate dietary consumption.

The aim of this Special Issue is to provide information with updated findings about the latest developments in the field of oral health and preventive strategies. It is our pleasure to invite you to submit research papers (both in vivo and in vitro), short communications, or systematic reviews related to the topics of this Special Issue.

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank: JCR - Q2 (Health Policy and Services) / CiteScore - Q1 (Leadership and Management)
