Social Functioning Determinants of the Clinical Course and Outcomes of Autism Spectrum Disorder

Message from the Guest Editors

Autism is a highly prevalent neurodevelopmental condition that can have profound health implications and associated costs. These challenges are significant not only for individuals with autism but also for their families and the broader healthcare system. This Special Issue aims to offer novel insights into how individual differences in social functioning—such as social communication, understanding, and motivation—act as determinants of clinical outcomes in autism. Original research articles and reviews are welcome. Research areas may include (but are not limited to) the following: characterizing clinically meaningful social functioning subtypes, exploring developmental trajectories, analyzing social functioning in relation to co-occurring conditions and well-being, predicting intervention response, evaluating familial and environmental influences, and validating assessment tools. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Sue & Bill Gross School of Nursing, University of California, Irvine, CA
92697, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1 (Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.4 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
