

Special Issue

Mental Health Promotion and Illness Prevention in Vulnerable Populations—2nd Edition

Message from the Guest Editors

This Special Issue welcomes original contributions relevant to this area of research across any setting, cultural background, and academic discipline with the hope of identifying work that will address groups at risk for mental disorders. Multidisciplinary research projects are especially encouraged. Authors are invited to submit research papers (quantitative, qualitative, case studies, or mixed-methods studies), concept analysis papers, quality improvement papers, and review papers. We also encourage submissions from countries or regions in which knowledge dissemination in this field has been sparse (Southern, Central, and Eastern Europe, West and Central Africa, South and Central America, etc.).
