Physical Activity and Chronic Pain Management

Message from the Guest Editor

Chronic musculoskeletal pain is a major public health problem worldwide and a leading cause of disability. Physical activity and exercise programs are widely recognized as effective non-pharmacological strategies for pain relief, functional improvement and improved quality of life. We are pleased to invite you to contribute to this Special Issue of *Healthcare*, which aims to explore the role of physical activity in the management of chronic musculoskeletal pain. Original research articles and reviews are welcome in this Special Issue. Areas of research may include (but are not limited to) the following:

- Benefits of physical activity in individuals with chronic musculoskeletal pain.
- Social and environmental barriers to physical activity in chronic pain
- Person-centered approaches and adaptations in exercise therapy.
- Pain science education and rehabilitation in chronic pain.
- Lifestyle-based interventions for pain management.
- Digital tools and technologies to support physical activity.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Sue & Bill Gross School of Nursing, University of California, Irvine, CA
92697, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q1 (Health Policy and Services) / CiteScore - Q1 (Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.4 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
