Progress in Prevention and Care for Cardiovascular Diseases

Message from the Guest Editor

Dear Colloquies, Cardiovascular diseases are the leading cause of morbidity and mortality worldwide with a heavy burden on healthcare systems. Recent years in medicine and cardiology have been seriously affected by the COVID-19 pandemic. Now that the pandemic is in retreat, we should come back to bench and bedside and start creating our future straightaway. If we go back in time just 20 years, into a world without smartphones, and see what the treatment of the most common cardiovascular diseases looked like, we can appreciate the development in technology, pharmacotherapy, and knowledge sharing. The way it will be in the forthcoming decades is utterly up to us. To address this issue, we invite both researchers and clinicians to submit the results of their studies on cardiovascular diseases. We expect papers with significant findings, making an impact on our knowledge and the way of thinking about certain cardiovascular diseases. The ultimate goal of this Special Issue is to create a scientific environment that will be able to improve patients' well-being and outcomes. Thank you for considering publishing with us. We look forward to hearing from you!

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Sue & Bill Gross School of Nursing, University of California, Irvine, CA
92697, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q1 (Health Policy and Services) / CiteScore - Q1 (Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.4 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
