

## Special Issue

# Benefits of Exercise on Reproductive Health

### Message from the Guest Editor

Exercise is defined as movement typically associated with positive outcomes. We often, however, neglect to highlight the barriers that prevent individuals from being physical activity. Women, individuals who menstruate, those undergoing IVF, or those who are pregnant often face health challenges that can contribute to them not meeting the appropriate recommended physical activity guidelines. Menstrual cramps, pregnancy fatigue, and menopause symptoms may present certain barriers, yet there is also a positive role of physical activity in decreasing these symptoms while maintaining muscle mass and bone density. In this Special Issue, dedicated to the 'Benefits of Exercise on Reproductive Health', we challenge exercise physiologists and other professionals to disseminate studies and quantitative, qualitative, mixed-methods, or systematic reviews that focus on exercise that includes an aspect of reproductive health in their research. Our goal is to explore the understudied relationship of reproductive health barriers and the benefits of exercise so as to provide women of all ages a supportive rationale to embrace movement.

## About the Journal

### Message from the Editor-in-Chief

*Healthcare* is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

*Healthcare* hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Sue & Bill Gross School of Nursing, University of California, Irvine, CA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

#### Journal Rank:

JCR - Q1 (Health Policy and Services) / CiteScore - Q1 (Leadership and Management)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2026).
