

Special Issue

Health Service Improvement, Nursing Management and Simulation

Message from the Guest Editors

In the constantly changing and evolving healthcare landscape, the continuous improvement and enhancement of healthcare services has become particularly crucial. This Special Issue provides a platform for academia, practitioners and decision-makers to engage in research and share experiences, promoting the exchange of best practices in healthcare services, nursing management and simulation. Through an in-depth exploration of topics such as enhancing the quality of healthcare services, fostering collaboration and leadership within nursing teams, innovative applications of information technology, simulation and other key themes, our aim is to drive the industry to better adapt to emerging challenges and elevate the overall standard of healthcare services. For this Special Issue, we welcome original studies encompassing qualitative, as well as quantitative and mixed methods, and (all kinds of) reviews. We look forward to receiving your contributions.
