Deadline for manuscript
submissions:

30 April 2025

Message from the Guest Editors

Dear Colleagues,

We are excited to announce a Special Issue dedicated to the comprehensive and multidisciplinary glass conservation field, inviting contributions which cover glass studies and the conservation of glass from all epochs, including contemporary art. This Special Issue seeks to gather research articles and reviews on pioneering and original research, practical applications, novel methodologies, and case studies, highlighting cutting-edge research and innovative practices in the preservation and restoration of glass artefacts.

We welcome contributions on the following topics of interest:

- Innovative Treatments
- Complex Deterioration Mechanisms
- Composite Objects of Glass and Other Materials—Issues and Solutions
- Sustainability, Preventive Conservation, and Storage
- Training in Glass Conservation

Our final aim is to gather expertise and share experiences that actively contribute to the preservation of glass heritage.
