Special Issue

Coffee and Alcoholic Beverage: Fabulous or Abysmal Encounter?

Message from the Guest Editor

More than two billion cups of coffee are consumed every day and, for many people, life would feel very unfamiliar without it. However, even though there are a variety of market-available coffee liqueurs, the famous ingredient of caffeine in coffee arouses health concerns when it is mixed with alcohol. The objective of this Special Issue is to publish original research and review articles on the various arguable aspects of "coffee and alcoholic beverage" originating from horticultural crops, in the view of preferences for flavor and health. The primary subject of this Special Issue may address the manufacturing (cooking) process, tastes, flavor, chemical composition and their correlation of "coffeealcoholic beverage", followed by consumer's preferences. In this Special Issue, we may also pay attention to the potent health risk of the products claimed by some health care providers. Through this Special Issue, readers may take the balanced knowledge about "Coffee and Alcoholic Beverage: Fabulous or Abysmal Encounter?". A total of 10 articles will be invited and the Special Issue may be printed in book form if the number is reached.

About the Journal

Message from the Editor-in-Chief

Horticultural plants and their products provide sustenance, health, and beauty. A confluence of factors is putting increasing pressure on horticultural production to evolve, and innovative research is addressing these challenges. *Horticulturae* provides a venue to communicate research results in a rapid manner with open access, allowing everyone the opportunity to stay abreast of leading research addressing horticulture. I invite you to consider publishing the results of your research in this high quality, peer-reviewed journal.
